Vocabulary

allergy

condition that makes
a person become sick
or develop skin or
breathing problems

A close-up photograph of a person's arm being measured for blood pressure. A white inflatable cuff is wrapped around the upper arm, with blue and white tubes extending from it. A medical professional, wearing blue scrubs, is holding the arm. The person being measured is wearing a brown leather watch. The background is a soft-focus clinical setting.

blood pressure

a measure of the pressure
at which the blood flows
through the body

braces

a set of wires attached
to a person's teeth

bruise

mark where the skin is
darker in color

A person with dark hair, wearing a light blue short-sleeved shirt and blue pants, is seated in a black wheelchair. They are positioned in front of a large window with white vertical blinds, looking out towards the right. The room has light-colored walls and a wooden floor.

disabled

not having one or more of the physical or mental abilities that most people have

fever

medical condition in which the body temperature is higher than usual

headache

a pain you feel inside your head

measles

an infectious disease that produces small, red spots all over the body

A pregnant woman with long brown hair, wearing a light blue short-sleeved dress, is smiling and looking down at two small black and white sneakers she is holding in her hands. The background is a bright, out-of-focus indoor setting.

pregnant

having a baby developing
inside the womb

sunburn

red, painful skin that
feels hot to the touch
