

แบบฝึกหัด 2.17

1. สังเกตความสัมพันธ์ของจำนวน 3 จำนวน แล้วเติมตัวเลขแสดงจำนวน

1) $60 + 8 = 68$

$68 - \underline{\hspace{2cm}} = 8$

$68 - \underline{\hspace{2cm}} = 60$

2) $43 + 7 = 50$

$50 - 7 = \underline{\hspace{2cm}}$

$50 - 43 = \underline{\hspace{2cm}}$

3) $37 + 9 = 46$

$\underline{\hspace{2cm}} - 9 = 37$

$\underline{\hspace{2cm}} - 37 = 9$

4) $55 + 6 = 61$

$61 - \underline{\hspace{2cm}} = 6$

$\underline{\hspace{2cm}} - 6 = 55$

5) $4 + 78 = \underline{\hspace{2cm}}$

$82 - \underline{\hspace{2cm}} = 78$

$\underline{\hspace{2cm}} - 78 = 4$

6) $\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = 94$

$94 - 5 = 89$

$\underline{\hspace{2cm}} - 89 = \underline{\hspace{2cm}}$

7) $3 + 57 = 60$

$\underline{\hspace{2cm}} - \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$

$\underline{\hspace{2cm}} - \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$

8) $95 + 5 = 100$

$\underline{\hspace{2cm}} - \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$

$\underline{\hspace{2cm}} - \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$

2. สังเกตความสัมพันธ์ของจำนวน 3 จำนวน แล้วเติมตัวเลขแสดงจำนวน

1) $15 + 80 = 95$

$95 - \underline{\hspace{2cm}} = 15$

$95 - \underline{\hspace{2cm}} = 80$

2) $23 + 66 = 89$

$89 - 66 = \underline{\hspace{2cm}}$

$89 - 23 = \underline{\hspace{2cm}}$

3) $55 + 38 = 93$

$\underline{\hspace{2cm}} - 55 = 38$

$\underline{\hspace{2cm}} - 38 = 55$

4) $41 + 19 = 60$

$60 - \underline{\hspace{2cm}} = 19$

$\underline{\hspace{2cm}} - 19 = 41$

5) $72 + 27 = \underline{\hspace{2cm}}$

$99 - \underline{\hspace{2cm}} = 72$

$\underline{\hspace{2cm}} - 72 = 27$

6) $\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = 100$

$100 - 54 = \underline{\hspace{2cm}}$

$\underline{\hspace{2cm}} - 46 = \underline{\hspace{2cm}}$

7) $33 + 57 = 90$

$\underline{\hspace{2cm}} - \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$

$\underline{\hspace{2cm}} - \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$

8) $25 + 75 = 100$

$\underline{\hspace{2cm}} - \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$

$\underline{\hspace{2cm}} - \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$
