Do you exercise regularly?

drink a lot of water

get enough sleep

eat a little chocolate

eat small meals

Drink a lot of water - Most people do not drink enough water every day. Water is very important for our body. In general, about 8-10 glasses of water a day is healthy.

Exercise - Exercising every day can help you live a long healthy life. Exercise is good for your heart and it can help you lose weight.

Eat a lot of fruits and vegetables -Experts say that we must eat a lot of fruits and vegetables everyday. Fruits and vegetables have important vitamins like vitamin C.

Eat small meals - Experts say that eating a few small meals every day is more healthy than a few big meals. In general, eat when you feel hungry, and stop when you are full. You don't need to wait for official meal times. Listen to your body.

Sleep - A good night's sleep is good for your memory, good for your heart, and it can help you live long and look young. But a lot of sleep is bad for your muscles. Experts recommend 8-10 hours every night.

Eat a little chocolate – Dark chocolate is good for you. Chocolate has antioxidants, and antioxidants help to keep your body clean inside. But chocolate also has sugar and caffeine in it, so a lot of chocolate is bad for you.

Don't drink much alcohol - A lot of alcohol is bad for your body, but a little alcohol may be good for the heart.
