# Sufficient Economy Philosophy

**“Sufficiency Economy”** is a philosophy conceived and developed by His Majesty King Bhumibol Adulyadej of Thailand after over 60 years of tireless development work to improve the lives of the Thai people and bring them genuine and lasting happiness.

**The goal** of the Sufficiency Economy Philosophy is to create a balance and stable development from the individual, family, and community to society at large by developing the ability to cope appropriately with the critical challenges arising from extensive and rapid changes in the material, social, environmental, and cultural conditions of the world.

**The principle** of Sufficiency Economy stresses the importance of following the middle path for appropriate conduct by the population at all levels of society in terms of development and administration in order to modernize in line with the forces of globalization.
