“How do we use the Internet?”

Teacher: Good morning, class! How are you doing nowadays?

Student 1: Good morning, sir! I'm healthy as always. How about you?

Teacher: Never better, thank you.

Student 2: Sir, I see your smile brightly, so I think you are very happy with your online teaching, right?

Teacher: Of course! This is because I can use many types of social media and keep in touch with all students after class.

Student 1: I remember we use Line application to talk with each other after class, right?

Student 2: Yes, yes, we have talked a lot. I also like Instagram because I can post the art piece from the photography class. When I do it around 7-8 pm, I can get more reactions and comments.

Student 1: And I think Twitter can help improve my writing skills.

Student 2: Yep! That's right. We can get a lot of opinions from all over the world. The menu 'top trend' can tell us what is happening in our country.

Teacher: We also have TikTok for practicing our speaking from all clips, right? Can you remember that?

Student 1 & Student 2: Sure!

Teacher: So do you think it is a good idea to use the Internet in our class?

Student 1 & Student 2: Yes!

Teacher: Okay! I will try. What about Facebook and Line group that we usually use?

Student 2: It is good because we can post the homework there and react to classmates' work. I think it is very effective for sharing knowledge.

Teacher: Excellent! We will use those then.

Student 1 & Student 2: You're welcome.
