บทสนทนาหัวข้อ “Social Media: Pros & Cons”

Cindy: Look around the cafe, nobody is talking to each other. They are just checking their smartphones.

Ben: I agree. But you know it is hard to live without them. We all connect with friends and family using our smartphones nowadays. You also use it, don't you?

Cindy: Yes, I do. But I think we spend less time with real people. We keep posting and chatting on our social media.

Ben: I totally agree. However, I think it is good for shy people like me to communicate online.

Cindy: What will happen to us if we carry on with this addiction?

Ben: I don't think it is an addiction. My grandfather is sixty, and he has just followed the news on Twitter, and he shares his selfies on Instagram every day. I think, in the future, everyone will use social media.

Cindy: I don't agree with you. Using social media is stressful. I think people will miss real life and stop using it.

Ben: I'm afraid I don't agree with you on this point. The world will be smaller, and we will learn different cultures and various kind of societies.
