Treasure Hunt

1. Divide students into pairs (A and B).
2. Give each student a corresponding A or B worksheet.
3. Tell the students not to share their worksheet to their partner.
4. Draw the students' attention to the "Useful language" box on the worksheet and review the language for asking and giving directions with the class.
5. Next, tell the students that they are going to give directions from the 'start' position located at the bottom of the map.
6. Students then take it in turns to ask their partner for directions to the places shown on their worksheet.
7. When the student has found the place, they mark the place on the map.
8. When both students have been given directions to all nine places, they compare their maps and see if they marked the locations correctly.
