- _____ 4. Moral foundations will foster human development at all levels.
- _____ 5. We can use Sufficiency Economy to solve the problem of economy of our country.
- _____ 6. In order to achieve Sufficiency Economy, we have to apply knowledge of environment and culture.

Exercise 27.2

TRUE

1. All people can use Sufficiency Economy in their daily lives.

Exercise 27.2

TRUE

2. The main principle of Sufficiency Economy is following the middle path.

Exercise 27.2

FALSE

3. We need great care, self-community and moderation in every step of planning and implement process.

Exercise 27.2

TRUE

4. Moral foundations will foster human development at all levels.

Exercise 27.2

TRUE

5. We can use Sufficiency Economy to solve the problem of economy of our country.

Exercise 27.2

FALSE

6. In order to achieve Sufficiency Economy, we have to apply knowledge of environment and culture.

Heroes' mission 4

Exercise 27.3

Look at the picture of
New Theory Farming
System in Thailand
below and explain it.

Exercise 27.3

New Theory Farming System in Thailand

Divide the field into 4 parts in the approximate ratio of 30:30:30:10

30% Pond

- Water saving for all year round
- Fish Aquaculture to increase more income
- At the edge of the pond - growing vetiver grass to protect soil erosion

30% Paddy Field

- One crop / year
- Storage for year round consumption

30% Trees/ crops

- Fruits trees
- Perennial trees
- Annual trees
- Herb and spice
- Multi-purpose trees
- Field crops

10% Residential

- Other activities: vegetable, herb, mushroom, livestock

The main point of New Theory Farming System in Thailand

What do you think?

How can you apply the philosophy of the sufficiency economy in your everyday life?

How can it help us?

What about your family?

Do you think it's useful? Why?

UNFORGETTABLE QUOTE FROM HIS MAJESTY KING BHUMIBOL ADULYADEJ THE GREAT

Sufficiency economy is the root of life, the country's foundation, similar to the foundation piles that support a house and a building. A strong structure is possible due to foundation piles, but most people don't see and even forget them.

“เศรษฐกิจพอเพียงเป็นเสมือนรากฐานของชีวิต รากฐานความมั่นคงของแผ่นดิน เปรียบเสมือนเสาเข็มที่ถูกต้องรองรับบ้านเรือนตัวอาคารไว้นั่นเอง สิ่งก่อสร้างจะมั่นคงได้ก็อยู่ที่เสาเข็ม แต่คนส่วนมากมองไม่เห็นเสาเข็มและลืมเสาเข็มเสียด้วยซ้ำไป”
